Inspector Observations

I conducted an active inspection of 1-25EX-00914-HUM on Thursday April 30th at approximately 1000 hours. Mendocino Forest Practice Inspector, Forester II, Brian Vitorelo accompanied me on the inspection.

When we arrived on site, we observed a tree being rigged with rope in preparation for removal. This tree was within the exemption area. I contacted timberland owner Robert Scarlett on site during the inspection, and he told me the tree being rigged would be felled within the next few days.

I inspected a fire box within the operating area as required by 14 CCR 918 and PRC 4428.

A copy of the Plan was on site as required by 14 CCR 1035.2.

Robert Scarlett and I discussed rules pertaining to timberland conversion and future projects that may qualify as timberland conversion. I reminded him that a timberland conversion permit must be obtained if he intends to convert timberland.

This exemption expires 12/14/2026.

Sincerely,

Michael McNicholas, RPF #3029
Forester II
